

Augusta's Planning & Development Goes Public with Zoning on GISmap

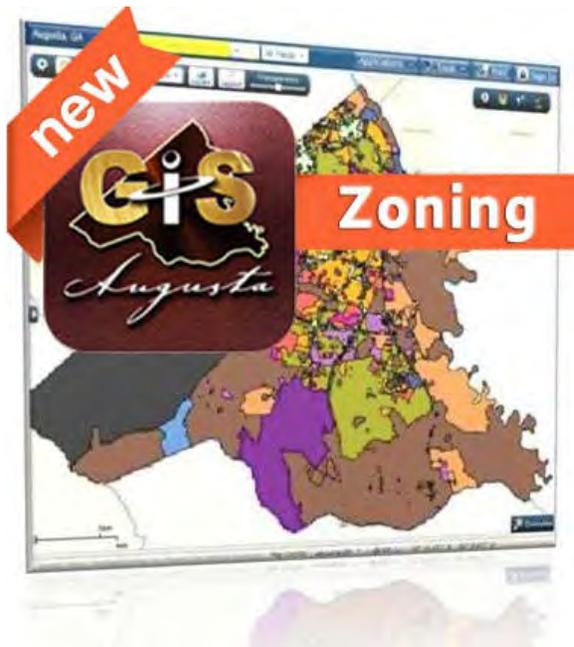

The Planning & Development Department (P&D) is committed to providing accurate and timely information to businesses and citizens of Augusta.

In an effort to expedite business transactions with this office and to offer the best customer service to our citizens, the Planning & Development Department will now offer Property Zoning Information via the City of Augusta's Online interactive maps: **GISMap**

This interactive mapping website allows users to determine the zoning classification for any area of the City. Users are allowed to search by specific address, owner name or parcel number, among other options. The map also provides information from a variety of City agencies and is presented in a format that is easy to navigate.

Mrs. Melanie Wilson, Director

October 2013

To begin a search for zoning information, visit Augusta's Interactive GIS Map <http://gismap.augustaga.gov/augustas/>

Viewing Zoning

Select the **Map Layers** button to open the dialogue box for Mapping Layers.

Click the **check box** next to Zoning to view the layer.

Identifying Zoning

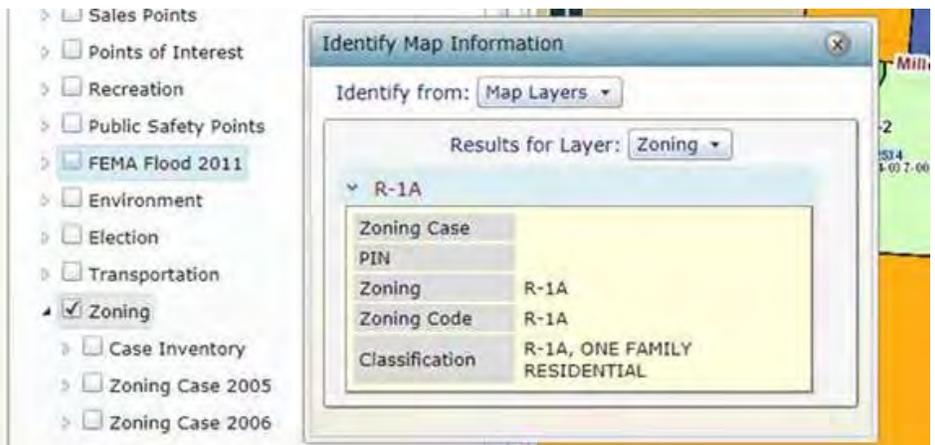

Select the **Identify** button and **click on the map**.

From the **Identify Map Information** dialogue box under the drop down

Results for Layer: select Zoning
